

THE CARE LIST

EMERGENCY PREPAREDNESS REGISTRY

Be Prepared. ● Be Known. ● Be Safer.

The CARE List is a voluntary registry to help local emergency response and preparedness teams identify individuals who may need extra assistance during community-wide emergencies such as severe weather, extended power outages, disasters, or evacuations.

IMPORTANT TO KNOW:

Registering does NOT guarantee assistance during an emergency. However, it helps responders plan, prioritize resources, and better understand community needs.

WHO SHOULD REGISTER?

You may want to register yourself or a loved one if you:

- ✓ Depend on electricity for medical equipment (oxygen, ventilator)
- ✓ Have limited mobility or need help evacuating
- ✓ Have a disability or condition affecting response to alerts
- ✓ Live alone without nearby support from family, friends, or caregivers
- ✓ Need transportation to reach a safe location or shelter

WHAT INFORMATION IS COLLECTED?

Horizon Public Health collects basic contact and essential information to share with emergency responders for better planning and response.
